

# Raptors

Birds of prey, or raptors, are specifically suited to their lives as hunters. Their strong legs and powerful grasping feet with sharp talons help them catch and kill prey. Hooked bills help tear the meat.

## Making a Comeback

Currently, there are two Bald Eagle nests at Bombay Hook and over 80 throughout Delaware. The Bald Eagle was taken off the Federal Endangered Species list in 2007.

*Bald Eagle*

*Osprey*

*Sharp-shinned Hawk*

*Peregrine Falcon*

*Northern Harrier*

*Red-shouldered Hawk*

*Red-tailed Hawk*

*American Kestrel*

*Cooper's Hawk*
